RUBBERMAID MATTERS

Successful professionals have learned to trust Rubbermaid Commercial Products to deliver money-saving innovations, with best-in-class performance and quality. When you choose products carrying the Rubbermaid Commercial Products brand, you are choosing the best value for your money, and communicating that your business maintains the highest standards.

SUSTAINABILITY MATTERS

We incorporate sustainability principles in the way we design and produce our products—from our ground-breaking utilisation of recycled materials in plastic, metal, and textile products, and our long-standing refusal to purchase colorants containing heavy metals, to our industry-best quality and durability.

HOW TO USE THE CATALOGUE

Waste Management

A large range of items to cover the waste management needs from the simplest waste bin to the most elaborate recycling system.

Cleaning

A full range of cleaning systems and small accessories offer you versatile equipment solutions to manage cleaning operations in all type of facilities.

Safety

An extended range of Floor Signs, Cones and Barricades to emphasize site safety, avoid slips and falls and secure areas in hazardous environments.

Skin care

Experience a new level of hygiene. Superior luxury liquid, foam and spray soaps are environmentally responsible with ingenious dispensers that ensure best cost-in-use.

Washroom solutions

Improve any washroom's image with Innovative dispensing platforms that deliver highly effective and cost-efficient odour control and cleanliness. World leading fragrances enhance the washroom experience.

Food Service

Rubbermaid Commercial Products' proven experience in Food Service equipment enables us to offer products to manage your Food Service business in accordance with HACCP guidelines.

Material Handling

Light and heavy duty transport Trolleys, Carts and Trucks will help you move material around faster and easily, saving time and avoiding painful back strain.

PRODUCT SPECIFICATION TABLE

Ref	Colour Code	Description	Material	Dimensions	Capacity	Colour	Pack
FG352600	GRAY, WHT, YEL, RED	Square BRUTE® Container	Polyethylene	54.6 x 54.6 x 57.2 cm	106 l		6

Add the colour code to the product reference in order to have a complete product reference number (SKU).
If the "Colour code" field is empty, this means that the "Ref" field corresponds to the complete product reference number (SKU).

Errors & omissions excepted – to the best of our knowledge the information supplied in this catalogue is accurate.

ISO 9001 is an internationally recognised quality management system that provides:

- Guidance for businesses that want to implement or improve quality systems within their business;
- Benchmarks that customers can use to evaluate a supplier's quality system.

ISO Certification of the Commercial Products Facilities perfectly embodies Rubbermaid® principles:

- ISO certification represents a commitment to continuous value improvement.

Rather than look at particular products, ISO reviews the systems and procedures through which businesses assure quality products.

- ISO certification shows that a company has built a culture of quality.
- ISO certification demonstrates a commitment to world class quality systems and the global marketplace.

ISO9001:2008
Member of SN Registrars (Holdings) Ltd
UKAS MANAGEMENT SYSTEMS

ISO 14001

ISO 14001 is an internationally recognised Environmental management system that assists companies:

- in reducing their negative impact on the environment.
- in continually improving their environmental performance, whilst complying with any applicable legislation.
- in meeting their environmental and economic goals.

BPA-FREE

This logo indicates that the product, which is intended for food contact, does not contain Bisphenol A (BPA).

CE

The CE marking (an acronym for the French "Conformite Europeenne") certifies that a product has met EU health, safety, and environmental requirements, which ensure consumer safety. Manufacturers in the European Union (EU) and abroad must meet CE marking requirements where applicable in order to market their products in Europe.

CSFM

CSFM

California State Fire Marshal. The state of California is regarded as having the most stringent fire codes of all the United States. Having the responsibility of preventing fire, the Californian Fire Service requires that all containers which are used in public areas to collect combustible materials (cigarettes) must pass an anti-fire test.

FDA

Food and Drug Administration does not approve products. The FDA sets regulations which require compliance.

FM

Factory Mutual is an independent testing agency whose approvals are based on Standard 6921 Combustible Waste Containers. Standard 6921 contains performance criteria for containers with covers (lids) and their ability to withstand internal fires, maintain a certain range of stability, if dumped, and stay intact over a wide temperature range. Standard 6920 contains performance criteria for Oily Waste Containers.

FOOD CONTACT

This logo guarantees compliance with the European Community regulation EC ni1935/2004 and EU Regulation 10/2011 that define standards for items that will be in contact with food. These standards relate to the production, materials and structure of the item, according to its use. Rubbermaid works closely with officially recognised European laboratories to comply with the highest standards in terms of "Food Contact".

GREEN SEAL™

This product meets Green Seal Standard GS-41 based on effective performance and protective limits on VOC's and human environmental toxicity. GreenSeal.org

HACCP

HACCP defines critical control points and related processes to ensure basic hygiene requirements are met in professional kitchens. The intuitive use of products marked with this symbol guarantees that they comply with the HACCP-guidelines. Since the 1st of January 2006 the European Community Directives EC No 852/2004 and EC No 853/2004 have been prescribing the implementation of HACCP mandatory guidelines in the European Union territory.

ISTA

International Safe Transit Association. The Compacted Mops were tested and certified via ISTA Test Procedures.

NSF

National Sanitation Foundation is an independent testing lab/organisation in Ann Arbor, Michigan. NSF lists products which meet their criteria for cleanability and sanitation: food contact, splash zone and non-food contact, as per Standard 2: Food Equipment and Standard 18: Manual Beverage Dispensers. Also, Standard 21: Thermoplastic Refuse Containers. To find Rubbermaid NSF certified products, please go to: www.nsf.org/certified

TÜV

The TÜV certification officially certifies the compliance of the Rubbermaid Commercial Products with the European requirements.

UL

Underwriters Laboratory. The UL classified baskets meet the criteria for UL Standard 242 which is a stan-dard of performance for open top, non-metallic wastepaper containers. UL classified baskets are generally found in patient care rooms (hospitals/nursing homes).

USDA

United StatesDepartment ofAgriculture Equipment Listing (Meat and Poultry and 3A Dairy Listing). Items that comply with USDA regulations via the design, construction and materials of a product.

EU Ecolabel www.ecolabel.eu

Better for the environment…
- Minimum inpact on the aquatic ecosystem
- Complies with the strict requirements of biological degradation
- Limited packaging waste

… better for you.

UV stabiliser added for maximum life in outdoor settings.

Indicates products that contribute to Green Cleaning and Sustainability.

Assembly required.

Hands-free products that help reduce the risk of cross-contamination.

Products and components are subject to change without notice, and may differ from catalogue imagery. Refer to "pack" size for exact carton contents.

Rubbermaid washroom guarantee

The Guarantee is against faulty workmanship and failure in operation when the products are used as directed. Guarantee is void should any claims be made on products that have been abused or vandalised, or if products have been used with non approved refills.

Waste is a big problem.

Too much waste is still being sent to landfill sites or being incinerated, when the best solution to reduce our environmental impact is to recycle and compost as much of our waste as possible.

The EU has set strict objectives : By 2020 :

- Landfill will be banned for at least paper, glass, textiles, plastic and metal.
- Separate waste collection systems for these categories must be set up.

Rubbermaid has the ideal solutions to help you set up a Recycling Programme.

Practical guide to set up your recycling programme:

1.Analyse Needs

- What waste streams do you want to recycle?

Possible examples:

- paper
- cardboard
- general waste
- plastic bottles
- cans
- milk and juice (Tetra Pak) cartons

- Identification of contractors who pick up recycling waste.

2.Set Objectives

- Measure the volume of each individual waste type.
- Negotiate with your contractors who pick up recycling waste.
- Define if recycling will be a profit centre.
- Track volume trends.
- Track material trends.
- Measure these results against main objectives.

3.Choose Products and Implement Recycling

- Choose appropriate recycling products.
- Identify key areas for recycling points and put up adequate signage.
- Contract with recycling contractors and define frequency.

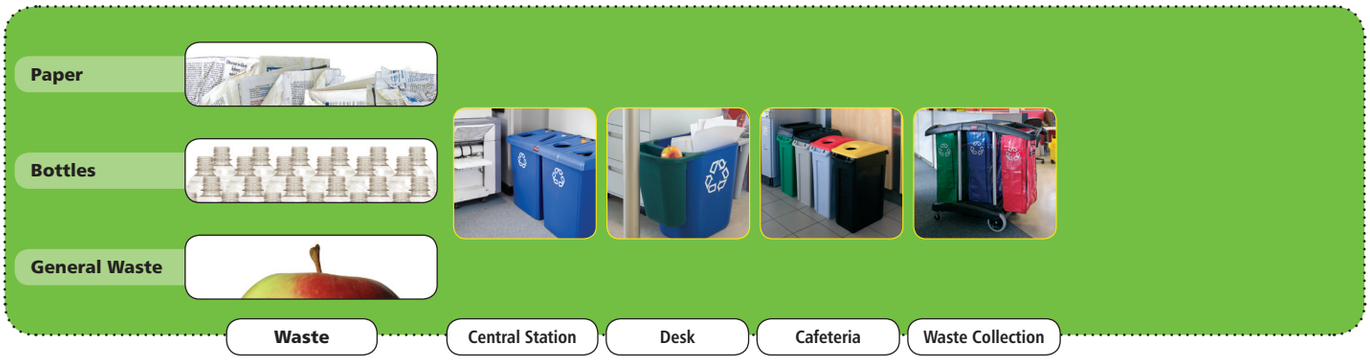

4.Training

Success of recycling on site is based on:

- Clearly communicating about your recycling programme.
- Putting intuitive stickers and posters up at recycling points.
- Creating awareness across the site, with awareness posters for encouragement.
- Training cleaners to ensure they are fully engaged in the recycling programme.

Solutions to achieve recycling.

Smarter Recycling.

Rubbermaid offers a wide range of products to help you actively manage and recycle your waste. This includes everything from desk-side containers for paper recycling to complete indoor and outdoor recycling stations and mobile collection equipment for handling larger loads with ease.

Rubbermaid offers Sustainable Products.

Not only do our recycling solutions help you increase recycling rates and reduce waste to landfill, they are designed and manufactured as sustainable products themselves, helping to further reduce overall environmental impact.

Quality and Durability:
Longer lifespan products improve sustainability. Rubbermaid's products are designed and tested to be of the highest quality and durability. Lower replacement costs.

Recyclable:
Rubbermaid's sustainable plastic, aluminium and steel products are engineered with the environment in mind. When a product does finally reach the end of its useful life, it is recyclable.

Recycled Content:
Many of Rubbermaid's sustainable plastic, aluminium and steel products have a significant recycled content. This lessens environmental impact by reducing the demand for raw materials.

Manufacturing, Sourcing and Packaging.

Rubbermaid Commercial Products have made a real and significant commitment to clean, sustainable manufacturing. We search the world over to find the best resources that will meet our stringent quality and environmental standards and continually strive to make our packaging more sustainable, using less material and a higher recycled and recyclable content.

Products made with PCR close the recycling loop by incorporating recycled material into new products!

Environmentally Responsible Products.

- Post-Consumer Resin (PCR) content.
  Rubbermaid offers a full line of recycling products that contain post-consumer recycled resin. Metal products contain post-consumer recycled content too.
- Environmental Stewardship-environmentally conscious recycling products enhance facilities' sustainability.

Did you know?

- Zero factory emissions on all Rubbermaid products made in U.S.A.
- 100% of our Nonconforming products after production checks are reground and reused.

Rubbermaid® Commercial Products

Slim Jim® Recycling Station

An adaptable recycling solution offers a front-of-house look with smart functionality.

- Customised recycling—Facilities can choose from 7 colours and 4 lid openings to customise a recycling station that fits their unique recycling needs.
- Venting channels for easy liner removal and a cinch grip to secure and hide liner bags.
- Components snap in place without the use of hardware.

New!

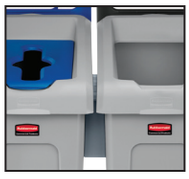

7 Colours available:
Colour-coding creates consistent visual cues for customers and staff when sorting recyclables.

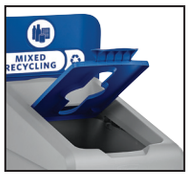

Special features

SNAP-IN CONNECTOR
Connect bases without the use of tools or hardware.

HINGED LID INSERTS
Accommodate larger sized recycling material.

VENTING CHANNELS
Make removing liners up to 80% easier, improving productivity and reducing the risk of worker injury.

BAG CINCHES
Secure liners around the rim of the container and allow for quick, knot-free liner changes.

OPTION 1: CHOOSE FROM OUR AVAILABLE KITS

2 Stream

3 Stream

4 Stream

Step 1. Select a recycling station

- Choose from 9 common recycling stations, incorporating bases, lids inserts and billboards.

Ref	Description	Material	Dimensions (cm)	Lid Type	Colour	Pack
2057605	2 - STREAM Landfill / Paper	Polyethylene/Polypropylene	54.61 x 60.96 x 102.24	Closed Lid • Paper		1
2057610	2 - STREAM Landfill / Paper	Polyethylene/Polypropylene	54.61 x 60.96 x 102.24	Closed Lid • Paper		1
2057733	2 - STREAM Landfill / Paper	Polyethylene/Polypropylene	54.61 x 60.96 x 102.24	Closed Lid • Paper		1
2057607	3 - STREAM Landfill / Paper / Plastic	Polyethylene/Polypropylene	54.61 x 91.44 x 102.24	Closed Lid • Paper • Bottles/Cans		1
2057731	3 - STREAM Landfill / Paper / Plastic	Polyethylene/Polypropylene	54.61 x 91.44 x 102.24	Closed Lid • Paper • Bottles/Cans		1
2057606	3 - STREAM Landfill / Paper / Mixed Recycling	Polyethylene/Polypropylene	54.61 x 91.44 x 102.24	Closed Lid • Paper • Mixed Recycling		1
2057608	4 - STREAM Landfill / Paper / Plastic / Organic	Polyethylene/Polypropylene	54.61 x 121.92 x 102.24	Closed Lid (x2) • Paper • Bottles/Cans		1
2057609	4 - STREAM Landfill / Paper / Plastic / Glass	Polyethylene/Polypropylene	54.61 x 121.92 x 102.24	Closed Lid (x2) • Paper • Bottles/Cans		1
2057732	4 - STREAM Landfill / Paper / Plastic / Glass	Polyethylene/Polypropylene	54.61 x 121.92 x 102.24	Closed Lid (x2) • Paper • Bottles/Cans		1

Step 2. Select the language of your labels set

- Choose one label set* from the available languages.

* One label set is provided per bundle, for additional languages please order extra label sets separately.

OPTION 2: CUSTOMISE YOUR OWN SOLUTION

Build your own recycling station in 3 Steps

1. Choose the number of starter kits
2. Choose your colour of bilboards and opening types
3. Select your labels kit

Step 1. Choose the number of starter kits

- Build your own station by selecting the starter kit which includes a base, lid and connector.

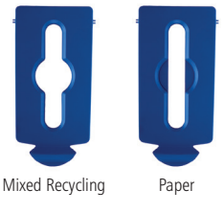

Ref	Description	Material	Dimensions	Pack
2007913	Starter Kit (Base, Lid and Connector)	Polyethylene	54.6 x 30.5 x 87 cm	1

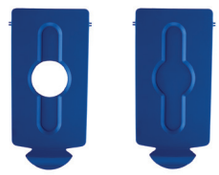

Step 2. Choose your color of bilboards and opening types

- Restrictive lid shapes ensure the right recyclables get into the right bins.
- Hinging lid inserts are optimized to fit any size recyclable.

Description	Material	Dimensions	Blue	Red	Yellow	Green	Black	Dark Grey	Brown	Pack
Closed Lid	Polypropylene	41.9 x 20.3 x 1.3 cm	2007888	2007192	2007200	2007884	2007892	2007896	2007900	1
Bottles / Cans Lid	Polypropylene	41.9 x 20.3 x 1.3 cm	2007889	2007193	2007881	2007885	2007893	2007897	2007902	1
Paper Lid	Polypropylene	41.9 x 20.3 x 1.3 cm	2007890	2007194	2007882	2007886	2007894	2007898	2007903	1
Mixed Recycling Lid	Polypropylene	41.9 x 20.3 x 1.3 cm	2007891	2007195	2007883	2007887	2007895	2007899	2007904	1
Bilboard	Polypropylene	4.4 x 29.8 x 36.2 cm	2007909	2007905	2007907	2007908	2007910	2007911	2007912	1

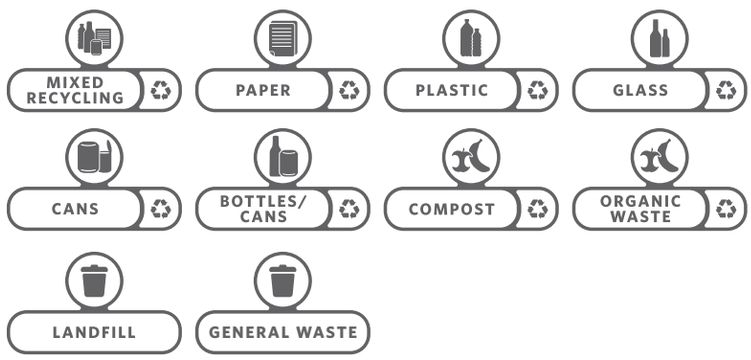

Mixed Recycling Paper

Bottles / Cans Closed

Step 3. Select your labels kit

- Provide better waste stream visibility by selecting a colour and waste stream label for your facility needs.
- Choose from ten waste stream labels to complete the system.
- Expert designed waste stream labels feature 3 visual cues: the recycling symbol, a waste stream icon and text proven to increase recycling effectiveness.

Ref	Description	Dimensions	Pack
2057734	Label Kit - English	0.16 x 24.3 x 14.2 cm	1
2057735	Label Kit - French	0.16 x 24.3 x 14.2 cm	1
2057736	Label Kit - German	0.16 x 24.3 x 14.2 cm	1
2057737	Label Kit - Dutch	0.16 x 24.3 x 14.2 cm	1
2057738	Label Kit - Italian	0.16 x 24.3 x 14.2 cm	1
2057739	Label Kit - Spanish	0.16 x 24.3 x 14.2 cm	1

*1 labels kit =10 stickers
We recommend you to order number of labels kits according to the number of starter kits divided by 2.
Ex: 20 starter kits = 10 labels kits

Rubbermaid® Commercial Products

Slim Jim® Vented

New!

- Efficient size and shape designed to fit in tight spaces.
- Durable, all-plastic construction is easy to clean.

*Each dolly sold separately

Glutton® Recycling Stations

Support your facility's recycling programme, help reduce labour costs, and improve worker well-being.

- **High-capacity, all-in-one centralised solutions for efficient waste sorting.**
- **Includes designated, item-specific tops, symbol label pack, and word label pack in English, Spanish and French that provides visual cue and encourage compliance.**
- **Features traditional Rubbermaid Commercial Products strength and durability in easy-to-clean, impact-resistant post-consumer plastic.**

MULTIPLE STREAM SORTING

- Use any combination of the restricted opening tops to sort up to four separate waste streams. Tops snap securely into lid.
- Commingle lid for mixed recyclables.

FLEXIBLE LABELING

- Includes separate colour-coded symbol and word labels for customising the Recycling Station based on facility needs.

PERMANENT HOT-STAMPED LOGO

EASY TO EMPTY

- Centre hinge allows the lid to be opened from either side for easy access to waste. Eliminates the need to remove the lid during emptying and helps reduce worker strain and trip-and-fall hazards.

1792372

Shipped as 1 kit : bases, 87 l Slim Jim containers, hinged lid, inserts and pictograms.

Fire Resistant Wastebaskets

Simple safe wastebaskets for general waste disposal.

- Rounded corners add strength and durability for long product life.
- Long-lasting, fibreglass. Will not rust, chip or peel and resists dents.
- Scratch-resistant texture cleans easily, maintaining long-term appearance.
- Conforms to important fire resistance standards.
- Tested and classified by Underwriters Laboratories as able to contain burning paper without the wastebasket melting or contributing fuel to the container's contents.
- Saddle Bin FG295073 fits R050713 / R050714 / R050715 for waste separation. (⚠ **FG295073 has no fire resistance certification**).

How much can you do to ensure the safety of your employees?

Implement a more hygienic waste disposal regime

Thorough procedures are necessary to make sure waste is correctly disposed of. It is not just a case of keeping waste out of contact with clean surfaces – the airborne dispersion of bacteria and spores means that waste materials must be well-contained at all times.

Rubbermaid's Step-On range of easy-to-clean hands-free bins help you dispose of waste safely and hygienically:

- Hands-free disposal: heavy-duty pedal for hygienic, hands-free use to significantly reduce cross-contamination through hand contact
- Each bin is equipped with a lid: essential for containing airborne pathogens and odours
- Soft-closing lid damper system: prevents the violent rush of air associated with a poorly designed bin that can disperse airborne contaminates into the surrounding environment
- Rounded corners and smooth contours for easy cleaning
- Hygienic non-porous resin and stainless steel construction for many years of reliable service

Did you know?
Improper disposal of waste can lead to food poisoning in food preparation areas.

Reduce physical stress and cut lost working hours

Repetitive or strenuous physical labour can result in musculoskeletal disorders (MSDs).

Primarily, MSDs can cause severe discomfort for staff, but there are also major costs to consider for employers:

- Medical, rehabilitative and administrative costs
- Loss of productivity
- Absenteeism

It is the employer's responsibility to provide their staff with the appropriate ergonomic equipment to help prevent the occurrence of MSDs. All Rubbermaid products are ergonomically-designed to help reduce physical fatigue and strain.

Rubbermaid's Step-On Best is the ideal solution and provides a number of ways to avoid MSDs:

- Easy emptying
- Front-opening to avoid lifting of potentially heavy waste bags
- Easy-grips for improved control and transport

Did you know?
90% of the working population is affected by musculoskeletal disorders (MSDs) at some point in their working lives. EU directives 90/269/EEC, 89/391/EEC and 89/654/EEC legally oblige the employer to provide staff with safe working environments and appropriate ergonomic equipment.

Legacy Step-On Containers

Ideal for hands-free refuse disposal.

- Tight-fitting, overlapping lid helps contain odours.
- Rounded corners and smooth contours for easy cleaning and disinfecting.
- Tough, puncture resistant, all-plastic. Construction will not rust, dent, chip or peel.
- Quiet, heavy-duty pedal.
- NHS fire testing approved (FG614600).

Slim Jim® Step-On Containers

Maximise space with a slender, discrete design and smaller footprints. Commercial grade pedal ensures long lasting product lifecycle. Silent lid minimizes noise to provide a safe and pleasant environment.

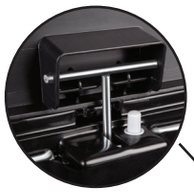

New!

FINGERPRINT PROOF STAINLESS STEEL
- Stays shiny & bright
- Requires less cleaning

OPTIONAL DUAL WASTE STREAM LINERS
- Unique waste sorting opportunities
- Sustainability options
- Reduces Risk of cross-contamination

SLOW-CLOSING, DAMPENED LID
- Healthcare noise level compliance
- Eliminates wall damages

EASY-LIFT RIGID LINER OR RETAINER BAND SYSTEM
- Liners stay-in place
- Increased productivity

EASY-ACCESS FOOT PEDAL
- Hands free, slip free pedal operation
- Reduces risk for cross-contamination

WIDE RANGE OF COLOURS
- Waste stream identification
- Reduces cross-contamination

FRONT OR END STEP STYLES
- Minimum footprint with maximum volume
- On-trend design

New!

Slim Jim® Step-On Resin containers
Fits in the tightest spaces.

- Space saving, 20 % smaller footprint versus previous generation
- Silent lid closure minimises noise level.
- Commercial grade pedal ensures long product lifecycle.
- Rigid liner not included with Front Step Container
- Rigid liner included for End Step containers.
- Two stream rigid liner available for 30L, 50L and 90L Front Step Resin model
- 90L Front Step containers have built-in wheels
- Wide range of colors for waste stream identification: beige, white, red, yellow, grey, black & blue

Rubbermaid® Commercial Products

Step-On Best

A 100 l front opening Step-On Bin, meeting users' needs: cleanability, hygiene, safety, ergonomics and durability.

FG615100RED

FG615100WHT

FG615100WHT

FRONT OPENING
- Easy to empty and easy to clean.
- Front opening gives easier access for easier cleaning.
- No heavy lifting–the front opening greatly reduces back strain.

BAG HOLDER
- Secures the polyliner.

LARGE PEDAL
- Large foot pedal permits hands-free opening to reduce spread of bacteria. Compliant with HACCP guidelines.

QUIET OPERATION
- Rubber wheels permit quiet transport without making marks on the floor.
- Damping mechanism gently closes without slamming.

How important is durability to your business?

Products that break or lose performance after only a few weeks or month are serious barriers to productivity, and continual replacement of these items makes it difficult to keep costs down.

The robust Rubbermaid solution

With more than 50 years of designing and manufacturing plastic products, Rubbermaid knows how to do durability. Our products:

- Are incredibly robust – see 'Did You Know' section below.
- Are resistant to bending or indentation.
- Are unaffected by rust: being plastic, our products do not rust.
  All metallic components are made from stainless steel.
- Suitable for extreme temperatures.
- Suited to indoor and outdoor use.

Did you know?

Our rigorous testing processes are designed to create products that improve productivity, increase efficiency and promote safer working practices.
To prove how tough our products are, we conducted abrasion testing* of the BRUTE® 167-litre container (item number FG2643).

Each BRUTE® container was loaded to 20% capacity with water, a weight of approximately 35 kg. The containers were then held by one handle, tilted and dragged across an interior floor – replicating the way most containers are used. The BRUTE® containers lasted an average of 4.5km until leakage occurred.

Greener plastics

Rubbermaid Commercial Products carefully respects the environment at every stage of the manufacturing process - a substantial proportion of the Rubbermaid's range can already be recycled.

Rubbermaid looks to offer the very best in durability, ergonomics and safety. Overall, the best return on investment available:

- Longer lasting. Made using the best materials to improve longevity.
- Low replacement rate. Our equipment keeps going and going and going.
- Make cash savings for your company.

* Internal testing

Rubbermaid® Commercial Products

Mega BRUTE® Mobile Collector

Mega BRUTE® Mobile Collector is a highly manoeuvrable and versatile waste and linen collection and sorting system. Innovative design features deliver improved productivity and ease of use.

- High capacity: 450 l .
- Polyliner retainer (secures a 200 l liner).
- Usable with 87 l Slim Jim.
- Optional lid fully covers waste and supplies.

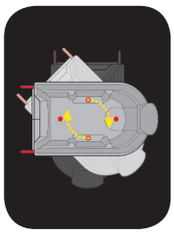

- Rear doors allow easy contents removal.

- Secures a can liner and flips up for easy access to storage area.

- Turns on its own axis and fits in tight environments.

- Sorting options: Holds an optional 87 l Slim Jim® container for improved waste sortation and recycling.

BRUTE® Containers

NEW DESIGN - THE TOUGHEST JUST GOT MORE PRODUCTIVE

Since 1968, Rubbermaid Commercial Product BRUTE® containers have been trusted by professionals for their iconic durability and reliability. With every lift, drag and drop, they've outlasted - and outperformed every competitor in their industry thanks to their proprietary design and the highest quality materials.

But we're raising the bar even higher with the new BRUTE®.

Innovative venting channels make removing liners 50% easier. Integrated cinches secure can liners, meaning knot free liner changes. Contoured base handles improve grip, reduce strain and improve efficiency when emptying containers. Self-draining lid eliminates water pooling.

Wide range of colours

Liner Cinches
Secure liners from falling in eliminating the need to tie knots

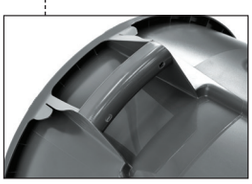

Rim with rib
strengthened design Increases strength and resists crushing

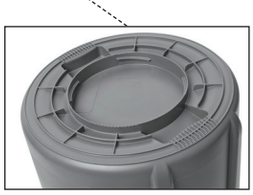

Reinforced Rounded Handle
Contoured Base Handles
Easier to lift and control during emptying

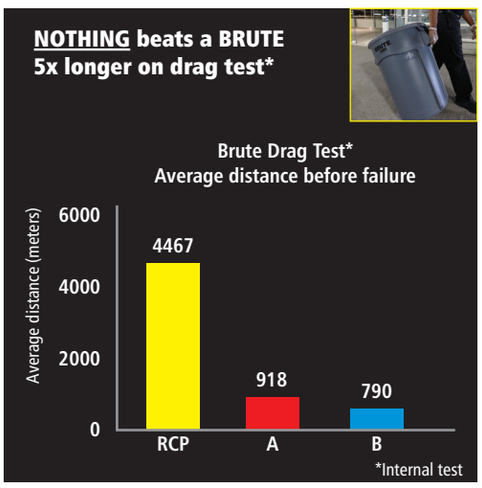

Venting Channels
50% easier to lift liners

Reinforced Rounded Handle
Tear resistant handles provide a comfortable grip

Strengthened Base
Drag resistant – can be continuously dragged over rough surfaces

BRUTE® Containers

Smart ergonomics, high durability, fast and safe change-out.

- Proprietary design constructed with the highest quality material plus a UV inhibitor ensures long life in even the most extreme commercial environments.
- Guaranteed to never fade, warp, crack, or crush.
- Rounded handles make lifting and moving easier, and are reinforced to resist tearing or damage from even the heaviest loads.
- Reinforced base is specifically engineered to be dragged over rough surfaces, extending life and overall durability even in the toughest environments.
- Contoured base handles improve grip and ergonomics, reducing strain and improving efficiency when emptying containers.
- Meets NSF 2, 21 approval and is USDA Meat and Poultry Group listed, ensuring regulatory compliance for food storage and clean ability.

New design features

- Innovative venting channels make lifting out liners up to 50% easier, improving productivity and reducing the risk of injury.
- Integrated cinches secure the liner, allowing for efficient knot free liner changes. Tested to 20,000 cycles.
- Rim features integrated rib structure to increase strength and resist crushing.

Ranger®

Ranger® waste containers feature modern styling, and easy-to-service design.

- High-capacity waste management.
- Designed for stadiums, parks, shopping centres, and other high-traffic areas.
- Permanently attached hinged lid for easy emptying.

MODELS WITH DOORS ARE UL/FM AND CSFM APPROVED.

LID OPTIONS

2 HINGED DOORS
- for waste concealment and odour control. (FG843088 and FG917188)

4 OPENINGS
- for easier access in high-traffic areas. (FG917388)

BETTER LINER RETENTION
Metal retainers keep can liners securely in place and eliminate knot tying.

ENHANCED DURABILITY
Ranger® lids feature integrated, durable hinges that keep the lid securely attached to the container during emptying.

WEIGHTED BASE OPTION
Optional Weighted Base (FG917700) is secured with screws for added stability.

Public health regulations continue to move smokers outdoors, making it ever more important to keep cigarette butts off the ground and out of waste bins. Rubbermaid's Smoking Management range of outdoor receptacles provide smokers with a convenient and tidy way to snuff-out cigarettes and dispose of them safely.
From our standard Ash/Trash Steel Containers to the innovative Smokers' Pole, Rubbermaid is dedicated to developing simple, easy to empty bins that keep pace with the current move towards outdoor smoking.

How can Rubbermaid help you achieve even better standards in cleaning?

Cleaning for health is a vital task carrying great responsibility. The standard of cleaning will be scrutinised by healthcare managers and the need to perform to the highest level is ever-present. As a result, you need the best cleaning products available, products you can rely on to get the job done without any hassle.

Did you know?

Time is money. Rubbermaid's range of advanced cleaning tools allows you to clean faster than ever before. Our internal testing has shown Rubbermaid's Pulse Mop to be 50% faster than traditional mop and bucket. The Pulse allows the user to direct a jet of water (or chemical) on to the target area, maximising efficiency and reducing the need to regularly move the mop to a bucket.

Rubbermaid will help you…

- Enable daytime cleaning services to reduce costs and improve cleaners' wellbeing.
- Provide healthy environments with the use of superior microfibre textiles.
- Offer ergonomic products to help your employees avoid injuries, strains and illnesses.
- Easier spot cleaning to help you keep your location in peak condition.

Rubbermaid's complete cleaning systems help you equip your team for every cleaning situation, from general to high-risk areas:

- Damp mopping: choose between traditional and microfibre mops.
- Dusting: a complete range of microfibre mops and high level solutions.
- Surface cleaning: the different textiles will clean glass and chrome better and easier.
- Mop buckets: single and double buckets with highly efficient wringing systems.
- Disinfecting bucket for healthier environments.
- Large range of cleaning carts to improve productivity.

In addition to specialist cleaning equipment, Rubbermaid supplies a full range of cleaning solutions for hospitality environments, such as Housekeeping carts suited to every situation.

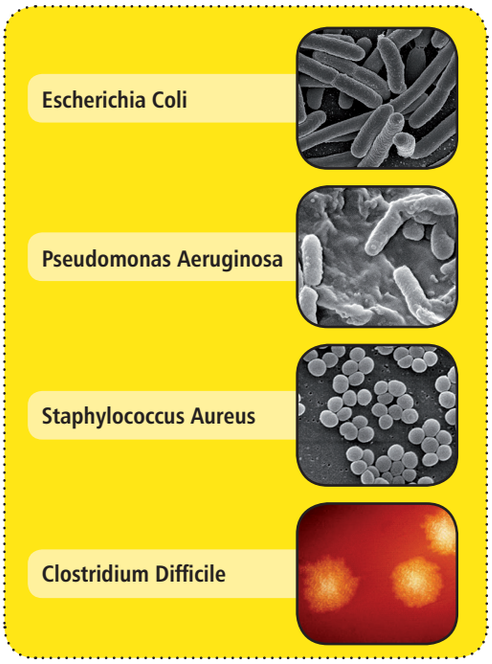

CLEANING FOR HEALTH
A complete system designed especially for high risk health environments.

SUPERIOR CLEANING FOR:
Superior INFECTION CONTROL

Dealing with germs has become a global problem.
Nosocomial Infections or Hospital Acquired Infections have become a major issue for the healthcare sector in many countries.

IN EUROPE 6 TO 10% OF PATIENTS CONTRACT NOSOCOMIAL INFECTIONS.

SUPERIOR PRODUCTIVITY

European employers must ensure the health, safety and wellbeing of their employees; this applies both to cleaning people working in-house and cleaning contractors. They need to equip their teams with productive and efficient tools that support RSI (Repetitive Stress Injuries) and MSDs (Musculoskeletal Disorders) reduction for common benefits.

THE RUBBERMAID HYGEN™ MICROFIBRE SYSTEM IS

75%

LIGHTER THAN TRADITIONAL CLEANING EQUIPMENT

Rubbermaid® Commercial Products

Rubbermaid Commercial Products HYGEN™ SYSTEM

Proven Performance
TO ENSURE HEALTHY, SAFE ENVIRONMENTS

- Superior microfibre textiles proven to remove micro organisms[1].
- Helps reduce cross-contamination[2].
- Withstands up to 1000 commercial launderings.

Complete System
TO MAXIMISE productivity and value

- Reduces chemical consumption up to 95% vs. traditional mopping.
- Reduces water consumption up to 90% vs. traditional mopping.
- Cleans floors more than 3 times faster than traditional string mop FGS3.
- Proven to reduce worker strain.
- Features legendary Rubbermaid durability.

Training & Support
TO DELIVER OPTIMAL RESULTS

- Dedicated Rubbermaid HYGEN™ training team.
- Detailed guidelines for approved cleaning procedures.
- Comprehensive on-site implementation and training.

PROVEN TO REMOVE OVER

99.9%

Rubbermaid Commercial Products HYGEN™ SYSTEM

Rubbermaid® Commercial Products

Rubbermaid PULSE™ Microfibre Floor Cleaning System

Clean more square metres in less time. Industry-best microfibre, on-board reservoir, and user-controlled release of solution.

Clean faster and better!

CLEANS UP TO
80 m²

NON-SLIP TIP
- When placed against a wall this tip helps prevent the handle from sliding and falling.

TRIGGER HANDLE
- Red trigger handle dispenses the cleaning solution.
- One-handed operation. Helps reducing RSI (Repetitive Stress Injuries).

EASY REFILL
- Fill the reservoir with cleaning solution. Reservoir window allow easy monitoring of fluid level.

AESTHETIC ON-BOARD FLUID RESERVOIR
- High-capacity refillable reservoir holds 0.6 l of solution to clean up to 80 m² of floor space.
- Can be used with water only, bleach or cleaning solution.

QUICK-CONNECT SYSTEM

IMPROVED SYSTEM!
- Thicker, seamless bladder for improved durability
- Sturdier connection between frame and Pulse

ON-DEMAND DELIVERY
- Press the trigger handle to dispense three streams of cleaning solution behind the mop (non-atomising for greener cleaning).

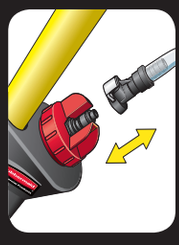

PULSE™ can be used with different mops. Please see page 49 for One-Sided Microfibre Mops or combine with Double-Sided Folding Frame and Microfibre Mops (see pages 49-51).

Rubbermaid HYGEN™ Microfibre Damp Mops

Superior microfibre is proven to remove micro organisms with non-disinfectant neutral cleaner.[1]

- Patented zig-zag scrubbing strips for cleaning tough, dried on stains.
- Reduces water consumption up to 90% versus traditional damp mops.
- 40 cm wet mops are colour-coded with 4 ribbons, help reduce the risk of cross-contamination.
- Velcro attach system.
- High absorbency mop holds up to 0.7 l of liquid.
- Frame and handle available page 56-57.

67% MICROFIBRE
22% POLYESTER
11% POLYPROPYLENE

Colour-coded ribbons.

Bleach-safe durability

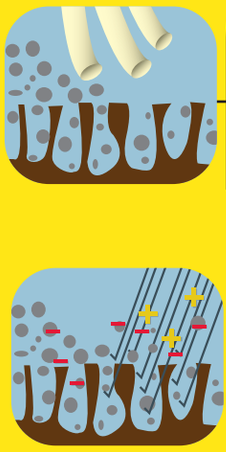

Bleach-safe microfibre textiles from Rubbermaid Commercial Products are proven to last longer and provide better cleaning efficiency than non-bleach-safe textiles.

- Rubbermaid bleach-safe microfibre withstands even the harshest high-PH detergents.
- Bleach sanitizes textiles when laundering below 90˚C (CDC minimum temperature when not using bleach).
- Bleach (hypochlorite based) solution is the only CDC recognised disinfectant for use in areas where Clostridium Difficile or Creutsfeldt-Jakob Disease may be present[2].

DURABLE UP TO

Rubbermaid® Commercial Products

Combine Rubbermaid PULSE™ Single-Sided or Double-Sided frame with High-capacity FLOW™ Backpack system, which allows user-controlled release of solution.

- Help reduce labour costs and improve worker productivity and well-being.
- Ideal for spot cleaning and to clean anywhere where you can not take a bucket. (Stairs, tube stations, trains, ...)

HIGH-CAPACITY BACKPACK SYSTEM
Holds 5.6L for cleaning up to 820m2 of floor surface. The 7.5 cm diameter opening makes refilling clean & easy.

IMPROVED COMFORT
Backpack features venting channels to improve airflow and reduce moisture on back while wearing.

PROTECTS WORKER WELL-BEING
Chest and waist straps distribute weight onto user's hips instead of shoulders, reducing user strain.

BUILT-IN CONVENIENCE
Includes built-in pockets for MSDS sheet, water bottle, and work radio/phone for user comfort and efficiency.

Combine with Backpack: Clean up to
820m²*

Combine Rubbermaid PULSE™ with optional Rubbermaid PULSE™ Caddy.

Rubbermaid HYGEN™ Microfibre Buckets

Rubbermaid HYGEN™ Microfibre Buckets complete a highly efficient flat mop cleaning system for healthcare and sanitary maintenance applications.

- Use with Rubbermaid HYGEN™ Microfibre Damp Mops and Quick-Connect tools for a continuous cleaning process.
- Easy-to-clean, lightweight non-porous plastic construction.
- Buckets work with all Rubbermaid HYGEN™ Microfibre Cleaning Carts.

Charging Bucket

- Reduces cross-contamination when a fresh mop is used for each room or area.
- All-plastic bucket holds 10–20 microfibre damp mops.
- Each mop holds enough liquid to clean up to 23 m^2; fully loaded bucket (20 mops) can clean up to 450 m^2.
- Safe for use in MRI rooms.

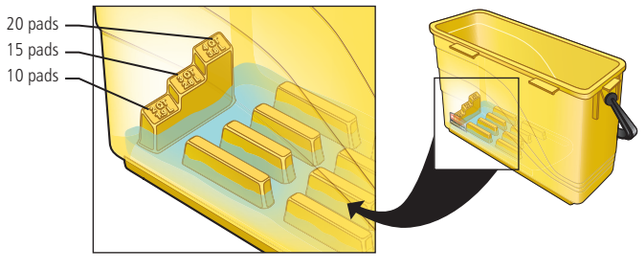

Top Down Charging Bucket

- Sieve design enables users to effectively and ergonomically moisten mops.
- Holds up to 16 Double-Sided Microfibre mops (see page 51 for mop information).
- Reduces cross-contamination when a fresh mop is used for each room or area.
- Safe for use in MRI rooms.
- Best for use with Double-Sided Microfibre Mops.

New!

FGQ95088YEL 1863892

Bucket design prevents over-saturation of microfibre mops and features a measuring guide for filling with cleaning and disinfecting solution before mops are added.

USING THE TOP DOWN CHARGING BUCKET

1. Fold the mop in half with the face material inside. Place folded mop vertically inside the bucket.

2. Pour disinfectant over the hinged sieve to moisten the mops evenly.

Rubbermaid HYGEN™ Flexi Frame™

Clean faster and more effectively with new Rubbermaid HYGEN™ Flexi Frame™. Frame conforms to curved surfaces for better pickup of dirt and debris.

- Frame flexes to clean both contoured and flat surfaces.
- 4 specialised mops for every cleaning need.
- Patented arc shape pulls dirt, hair and debris toward the centre for better pickup.
- Proprietary flexible compound will not crack or split, even when used with bleach or peroxide.
- Use hand-held or with Rubbermaid HYGEN™ Quick-Connect handles and extension poles, excellent to clean hard-to-reach areas (see page 58).
- For all covers: 500 launderings without bleach, 200 launderings with bleach. *

Better surface contact. Flexible mop frame conforms to the shape of the surface being cleaned.

FGQ85500BK00

Patented arc shape pulls dirt, hair and debris toward the centre for better cleaning.

Flexible frame provides better surface contact for more effective cleaning.

PROPRIETARY FLEXIBLE COMPOUND

Rubbermaid HYGEN™ Quick-Connect Frames

Quick-Connect frames feature a flat profile that slides easily under furniture and equipment. Trapezoidal shape improves cleaning in corners and other hard-to-reach areas.

- Lightweight aluminium construction is safe for MRI rooms.
- Replaceable hook and loop strips attach all Rubbermaid HYGEN™ Microfibre Damp and Dust Mops.
- Rounded plastic end caps help protect walls and furniture.

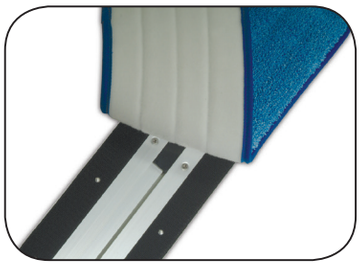

Secure pad attachment. Aluminium frames have removable hook-and-loop strips on the underside for attaching pads. Replaceable strips slide into channels and are held in place by removable end caps.
The hook-and-loop strips and end caps are available as spare parts.

Open-step Quick-Connect mechanism makes mop assembly and frame changes fast and esay.

End Caps 1791803

Hook-and-loop Strips R034546

FGQ760000000

R034573

FGQ77500YL00 Extends from 182.9 to 548.6 cm!

NON-SLIP TIPS

- When placed against a wall, these tips help prevent the handles from sliding and falling (standard on all Quick-Connect handles and poles).

LARGE COMFORTABLE GRIP

- Provides better stability for cleaning high areas with extension poles.

RUBBERMAID HYGEN™

- Frames and handles contain non-magnetic aluminium and are safe to use in MRI rooms.

Can also be used in a push/pull style.

Uniquely shaped grip and ergonomic bend to minimise awkward position.

Rubbermaid Microfibre Cloths

Rubbermaid HYGEN™ Microfibre Cloths

Industry-best microfibre cloths include patented zig-zag scrubbing strips and high quality knitting for better absorption and debris pickup.

- Double-finished edges provide durability and shape retention.
- Launder **500 times** without bleach or **200 times** with bleach.
- Withstands up to 90°C hot water for bleach-free sanitation.
- Colour-coded for general purpose and special applications.
- Smooth, blue knit for no-lint cleaning of glass and polished surfaces.

Microfibre Cloths - Yellow, red, green, and blue cloths for cleaning by area or task.

PROVEN TO REMOVE **99.9%** of microorganisms

Rubbermaid Professional Microfibre Cloths

With the cleaning effectiveness of split microfiber and the extended durability, these cloths will keep your cleaning operation at a competitive.

- Split Microfibre.
- Launderable up to 100 times with bleach, 250 times without bleach (based on internal testing).
- Cleans better & last longer.
- Best absorption capacity.
- Low cost alternative that delivers superior cleaning performance.

Cotton Flat Mops

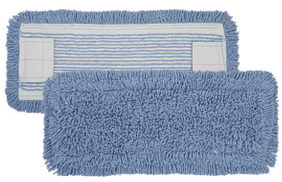

- Looped-ends and tailbanding reduces tangling for like-new performance
- after every laundering.
- The 4-ply, balanced blend of cotton and synthetic yarn withstands repeated launderings without shrinkage.
- Antimicrobial protection prolongs the lifespan of the fringe and ensures maximum hygiene by inhibiting the growth of micro organisms.
- When used for wet cleaning: the Down Pressure Wringer with the Press Reducer R001589 in combination with the Combo Bravo Bucket or the Sani Duo are the ideal tool.
- When used for damp cleaning: combine the Combo Bravo Bucket or the Sani Duo with the Roller Wringer.

Web Foot® Microfibre Tube Mops

Designed to have greater floor contact and improved absorbency.

- Constructed with a blend of continuous filament microfibre and polyester.
- Triple the durability and withstands three times the number of launderings of standard blend mops.
- Superior absorbency and release characteristics.
- Tube design reduces drag for increased productivity.
- Lasts 200 launderings with bleach in 90°C water.
- Clean 54% faster than standard cotton mops.
- Ideal in combination with the Down Press Wringer and the Sani Duo or the Combo Bravo Bucket (see page 65).

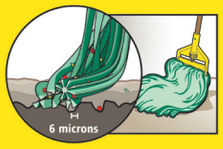

RUBBERMAID WEB FOOT® MICROFIBRE MOPS PROVIDE MAXIMUM CLEANING POWER WITH BEST-IN-THE-INDUSTRY SPLIT MICROFIBRE YARNS.

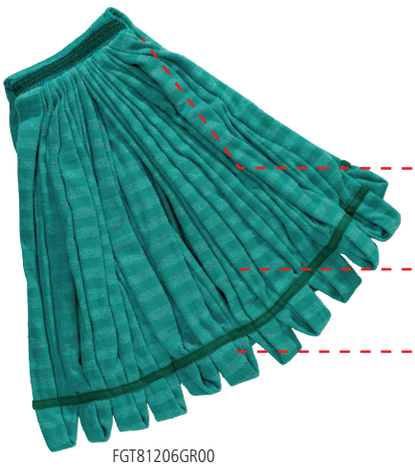

COTTON FIBRE
- Cotton fibres are too large to clean crevices where bacterias, spores, and viruses hide.
- Tests prove cotton fibres remove only 65% of these contaminants.

TRADITIONAL NON-SPLIT MICROFIBRE
- While half the size of cotton fibres, non-split microfibre is still not fine enough to effectively remove pathogens.
- Tests prove non-split microfibre also leaves contaminants behind.

RUBBERMAID SPLIT MICROFIBRE
- Exceptionally fine, premium quality Rubbermaid split microfibre penetrates microscopic crevices where cotton and non-split microfibre cannot reach.
- Tests prove Rubbermaid split microfibre traps, holds and removes 95% of contaminants.

DURABLE HEADBAND
PVC-coated mesh headband for longer product life.

BLEACH SAFE
in laundry and use.

DOUBLE-STITCHED TAILBAND
Improves durability and eliminates streaking.

Can be used with handle FGH14600

FGT81206	GR00	Web Foot® Microfibre Tube Mop	Microfibre	400 g		6

Web Foot® Microfibre String Mops

Highly durable and absorbent for extra-long mop life.

- Constructed with a blend of continuous filament microfibre and antimicrobial yarn.
- Pre-laundered and pre-shrunk.
- Double the durability and withstands twice the number of launderings of standard blend mops.
- Recycled content: 21% post-industrial cotton and 28% PET plastic.
- Works with all traditional wet mop handles and frames.
- Ideal in combination with the Down Press Wringer and the single or double bucket and the Combo Bravo bucket or the Sani Duo.

DURABLE HEADBAND
PVC-coated mesh headband for longer product life.

SHRINKLESS
Pre-laundered and pre-shrunk for long-lasting performance.

DOUBLE-STITCHED TAILBAND
for improved durability and launderability.

LOOPED-END BLENDED YARN
Provides superior absorbency and release for faster drying floors and improved productivity.

Wet/Dry Debris Pan

- Holds 10X more liquid* for efficient cleanup and less rework.
- Beyond the peak of the slope is a drop-off that will not allow liquids to find their way back onto the floor surface.
- The wide, uniquely shaped pan allows liquid and solid debris to easily collect in the pan.
- Molded-in baffles keep both dry and wet debris from leaking back onto floors.
- Durable rear wheels improve wear resistance and extend product life.
- The Cleaning Wand allows users to quickly and effectively transport liquid or mixed spills from smooth or rough surface floors into the Spill Pan.
- The Cleaning Wand blade is made of a soft double moss squeegee foam and is supported by a galvanised metal frame.
- It also includes a 116.8 cm metal handle for wide area spill cleaning without bending over.

How can you provide even better hotel housekeeping services to your customers?

The hotel housekeeper is the guardian of a hotel's brand. Their job is vital to ensure that guests have an enjoyable stay, and that standards of hygiene are upheld.

The main challenges for the housekeeper often include:

- The need to reduce cleaning time.
- Maintaining clean corridors while performing normal housekeeping duties.
- The lack of storage space available.
- Providing a nominal level of security and looking to prevent theft from rooms.

Rubbermaid offers a wide range of ergonomic solutions that help housekeepers meet every challenge in:

- The High Capacity Cart is designed to service up to 16 rooms.
- For smaller hotels and limited storage, the Compact Folding Housekeeping Cart combines the best in functionality with a significant reduction in size when folded.
- Rubbermaid provides a selection of different designs and finishes to suit each hotel interior.
- To prevent theft, all carts are supplied with locking cupboard spaces, while the majority of models feature locking security hoods.

Did you know?

Not every hotel has wide, spacious corridors and large areas of room space to manoeuvre a cleaning cart. That is why Rubbermaid has designed the Compact Folding Housekeeping Cart to fold down to nearly 30% less than its original size.

High Capacity Housekeeping Carts,

designed for larger hotels.
Fully equipped they can service up to 16 rooms.

PROTECTIVE SECURITY HOOD
- Lockable, to keep cleaning supplies and amenities concealed from view (optional).

MOULDED-IN HANDLES
- For easy mobility down halls and around corners.

LOCKING DOOR KIT
- Conceals contents to provide enhanced security.

LINEN ACCESSORY MESH BAG
- Attached to handle area, ideal for transporting additional clean towels/linens (optional).

SILENT NON-MARKING WHEELS
- (20 cm), two locking brakes. Aiding movement on all floor surfaces.

Quick Cart

New!

The Rubbermaid Quick Cart is the industry's most durable mobile cart solution. Constructed with high-performance materials and treated with Teflon® fabric protector to repel water, oil, and stains, this compact cart withstands rigorous daily use. For the most durable mobile cart solution with a professional, discreet appearance, upgrade to the Rubbermaid Quick Cart today.

ADJUSTABLE DIVIDERS
Dividers can be moved or removed to create multiple compartments to meet your specific cleaning needs.

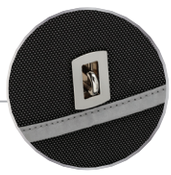

SECURED STICK GOODS
Heavy-duty fastening strap wraps around supplies to keep them secure while the cart is in motion.

REMOVABLE CARRY CADDY
Rigid dividers improve efficiency, keeping amenities and supplies organised.

SECURE SUPPLIES
Durable lid conceals supplies and features hardware for adding a lock to prevent unauthorised access to cart and its contents.

Repels Water, Oil, and Stains
Teflon® fabric protector helps maintain Quick Cart aesthetics and protects from rigorous daily use.

Heavy-Duty Kick Plate
Reinforced rubberised kick plate for increased durability and reduced wear and tear.

****Biohazard Spill Mop Kit includes:** 1 Biohazard Spill Mop Pads 10 ct, 1 Spill Mop Handle, and 1 Spill Mop Storage Cabinet

HIGHLY ABSORBENT
Absorbs up to 32 ounces (0.94L) of water.

DRIES FLOORS FASTER
Leaves floor dry faster than a cotton string mop.

EASY RELEASE
Integrated release lever helps avoid contact with soiled mop during disposal.

NO DRIPS OR LEAKS
Absorbed liquid is locked inside to prevent drips or leaks during disposal.

DISPOSABLE
Quick and convenient. A clean mop every time helps prevent cross-contamination

COMPACT DESIGN
Mop pads and telescoping handle fit in tight spaces

Rubbermaid® Commercial Products

Floor Signs

Lightweight and versatile, but make a strong statement about safety.

- "Caution" warning messages printed in English, French and Spanish for effective communication to broad audiences.
- Folding design for convenient storage or transport on Cleaning Carts and Rim Caddy.
- Two-sided, FG611200YEL and 1867505 models available for use in narrow areas.
- Two models of wooden signs with an elegant and sophisticated design perfect for the hospitality environment.

Stable Safety Signs

- Self-opening feet give sign large, stable base.
- Low centre of gravity helps prevent tipping when bumped, kicked or blown by wind.

Simple By Nature. Simple By Design.

REVOLUTIONARY GREEN ENERGY SYSTEM THAT TRANSFORMS LIGHT INTO POWER

LumeCel™ captures energy from regular indoor lighting

Like a solar panel capturing energy from the sun, LumeCel™ captures energy from any indoor or natural light source.

LumeCel™ is Smart

LumeCel's™ rechargeable energy cells use nickel metal hydride technology. Highly efficient, LumeCel™ stores energy from light, providing it's own internal energy source. Easy to use, ready for use, right out of the box.

LumeCel™ is Clean

Compared to current dispensers with alkaline batteries, LumeCel's™ rechargeable energy system eliminates the need to purchase, store, replace and dispose of alkaline batteries. This means a reduction in your overall contribution of batteries to the ever growing mass of landfill waste.

LumeCel™ is a self-sustainable solution

The LumeCel™ rechargeable energy system is completely self-powered, requiring zero alkaline batteries to operate.

LumeCel™ saves time and money

Staff will no longer need to purchase, store, replace and dispose of alkaline batteries. LumeCel is also virtually maintenance free, reducing the potential of workplace mishaps or accidents.

250 million

kilos of alkaline and lithium batteries go into landfills, globally, every year. With LumeCel, you're no longer a contributor to this waste stream.

Rubbermaid® Commercial Products

Why is Skin Care so important?

Looking after your skin is important, especially if you regularly use abrasive chemicals or are exposed to extreme conditions. Staff and customers value high-quality hand soaps and reliable soap dispensers – a faulty dispenser will leave customers unhappy and inconvenienced.

Experience that matters…

From the rich and luxurious to the economical, Rubbermaid Commercial Products' complete line of skin care systems suits every need. Rubbermaid's innovative dispensers range from automatic through-the-counter systems to manual wall-mounted styles. Superior hand washing experience, lower cost-in-use, and environmentally responsible products mean Rubbermaid is your source for innovative solutions.

Encouraging healthy hand washing is good practice.

Most importantly, the range of skin care systems meets the following key needs:

Continuous supply of soap, alcohol free and alcohol plus hand rub.
Reliable performance with no drips or clogs.
Easy and low cost servicing.
An enjoyable and safe hand washing experience.

Rubbermaid Best Practice

Follow our recommended 3-step skin hygiene regimen to improve personal wellness with our complete line of respected formulas, moisturising and soaps with antibacterial agents and nourishing skin lotions.

Enriched Foam soaps

Rich, dense skin care formulations that washroom users will love. This high quality foam soap contains up to 70% more soap solids than other foams, and is enriched with skin-friendly conditioners and moisturisers.

Spray soaps

The most cost-effective system available – reduces soap consumption by up to 60%. Formulas include lotion soap with moisturisers and spray soap with antibacterial agents.

Liquid soaps

Stylish dispensers and high quality cleansers for a top class washroom image. All formulas include moisturising ingredients to soothe and soften the skin.

Smarter Skin Care

Rubbermaid Skin Care provides customers with a comprehensive hygiene programme of innovative product solutions and motivating support materials to deliver superior Personal, Economic and Environmental Health.

SUSTAINABILITY

Environmentally preferred solutions that do not compromise performance

EU Ecolabel
www.ecolabel.eu
Better for the environment...
- Minimum impact on the aquatic ecosystem
- Complies with the strict requirements of biological degradation
- Limited packaging waste

...better for you.

DID YOU KNOW?

The largest organ in your body is your skin - a vital protective 'layer' that allows us to react to external conditions and regulate our body temperatures. The average human body has 1.5-2.0 square metres (16-21.5 sq ft.) of skin, between 2–3 mm (0.10 inch) thick. The average square inch (6.5 cm²) of skin holds 650 sweat glands, 20 blood vessels, 60,000 melanocytes, and more than 1,000 nerve endings.

Rubbermaid® Commercial Products

AutoFoam with LumeCel™ Technology

Touch-Free Dispensing System Powered by lights

Rubbermaid Commercial Products introduces an innovative, new technology to touch-free skin care — AutoFoam, powered by the LumeCel™ rechargeable energy system.
High quality foam soap in an attractive touch-free dispenser. Now more efficient and does not rely on alkaline batteries.

New!

LumeCel™
Powered by Light

Why LumeCel™?

- LumeCel™ captures energy from regular indoor or natural lighting
- LumeCel™'s rechargeable energy system.
- LumeCel™'s system is the cleanest, best choice for the environment.
- LumeCel™ eliminates the need to manufacture, use and dispose of alkaline batteries.
- LumeCel™ is completely self-powered.

Touch-free delivery eliminates cross-contamination

Refill and energy cell life indicators make maintenance easy

Stop Changing Batteries

LumeCel's rechargeable energy cell and advanced solar panels make the AutoFoam completely self-powered by indoor or natural lighting.

Zero Alkaline Batteries

AutoFoam is now powered by the LumeCel™ rechargeable energy system, eliminating the need for alkaline batteries. It's completely self-powered by indoor lighting (both artificial & natural light).

Lower Maintenance Costs

Each AutoFoam skin care system is self-powered and works right out of the box. The need to purchase, store, replace, and dispose of batteries is eliminated.

Low Disposal Impact

Since no alkaline batteries are needed to operate the LumeCel™ powered dispensers, the need to dispose of them is eliminated.

Upgrade existing Autofoam

Converting your existing AutoFoam System to utilize LumeCel's™ technology is possible by removing the existing AutoFoam front cover, and replacing with a LumeCel™ retrofit cover. The retrofit cover includes a new AutoFoam cover with solar panels, a new pouch holder, and the LumeCel™ rechargeable energy cell.

TECHNICAL CONCEPTS

AIR CARE

Rubbermaid Air Care Systems ensure that the first things you and your customers notice when you enter your washroom is a clean, fresh and pleasant fragrance.

By combining innovative and reliable dispensing technologies with our select fragrances, our automated air care systems are highly cost-efficient and long-lasting, delivering consistent and continuous freshness, offering the perfect solution to suit your specific washroom needs.

FLORAL

Characterized by radiant notes such as rose, jasmine, violet; green notes which are reminiscent of freshly cut grass, leaves, and stems.

FRUITY

Characterized by luscious fruity notes such as apple, pear, plum, mango, peach, and melon.

CITRUS

Characterized by invigorating & uplifting notes such as lemon, mandarin, and other citrus oils.

HERBAL

Characterized by powerful, aromatic herbal notes such as rosemary, mint, coriander, lavender, and sage.

FOUGÈRE

Characterized by masculine notes such as lavender, moss, and woods.

GOURMAND

Characterized by mouthwatering, edible notes and sweet, comforting vanilla.

ORIENTAL

Characterised by notes such as spices, sweet balsams and resins.

TCell™ 2.0 Fragrance Refills

Pure designer fragrances that washroom users love.

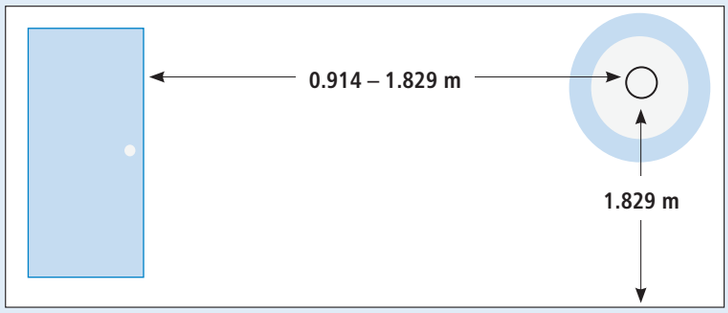

*Refills and dispensers are recyclable in category 7

DISPENSER INSTALLATION

Position the dispenser in an area where moving air will disperse the fragrance and neutraliser throughout the entire area, normally 0.9 to 1.8 metres from the entrance way.

Fuel Cell Technology

TCell™ 2.0's Fuel Cell technology allows for the creation of hydrogen directly in the device's formula chamber. As each molecule of hydrogen is created, it forces an equal amount of odour neutraliser out of the chamber. From there, natural airflow distributes the fragrance and odour neutraliser throughout the space, covering up to 170 cubic metres.

- Silent operation
- No propellants
- Battery-free operation
- A cost-effective air care solution

TCell™

A true odour neutraliser, TCell™ refills are available in a wide range of customer preferred fragrances from mild to intense for a clean, fresh scent that lasts. Conventional gel systems lose their fragrance intensity over the life of the refill, but TCell™ remains constant.

How a fragrance intensity is perceived is a personnel, please contact your local sales representative for samples.
Our sales representative can also consult you on which fragrance to use, depending on where the dispenser is situated.

How can you tell a winning washroom?

Everyone expects washrooms to look clean and smell clean. An immaculately clean washroom is worth nothing if unpleasant odours linger for too long. Equally, good odour control needs to be environmentally sustainable and easy to maintain – a system that needs constant supervision is definitely not an ideal situation.

Rubbermaid's air care products provide discreet and effective systems to help you make the best impression. Rubbermaid's innovative dispensing platforms deliver highly effective and cost-efficient odour control without the need for constant maintenance. Rubbermaid's world-leading fragrances enhance the washroom experience.

- Reliable and cost effective
- Simple servicing
- Flexible programme options

Aerosol Systems
Advanced aerosol dispensing with a choice of operating programmes and refill options.

Microburst Systems
Compact system delivers full impact odour control, with three times the odour control and fragrance as ordinary refills but 63% less VOCs (volatile organic compounds) than standard aerosols.

TCell™
Small and stylish system for continuous odour control and fragrance, powered by revolutionary battery-less fuel cell technology.

71%

FEEL A FRESH SMELLING RESTROOM IS A SIGN OF A WELL-MAINTAINED RESTROOM

Pump Spray System
A non-aerosol alternative for effective air care and odour control.

Rubbermaid® Commercial Products

Microburst® 3000 with LumeCel™ Technology

INTRODUCING a revolutionary New Technology to the Washroom

Rubbermaid Commercial Products introduces a revolutionary new technology to air care — the Microburst® 3000, powered by the LumeCel™ rechargeable energy system. With easy, flexible programming, and world-class reliability, the Microburst 3000 offers an effective air freshening system that is now better and safer for the environment.

- LumeCel™ captures energy from regular indoor lighting
- LumeCel™'s rechargeable energy cells are made from fully recyclable nickel metal hydride technology.
- LumeCel™'s revolutionary green energy system is the cleanest, best choice for the environment.
- It's 100% recyclable and eliminates the need to manufacture, use and dispose of alkaline batteries.
- LumeCel™ revolutionary green energy system is completely self-powered and guaranteed to run automatically for years and years.

LIFETIME WARRANTY

LumeCel™ Powered by Light

Zero Batteries

The Microburst 3000 is powered by the LumeCel™ rechargeable energy system, eliminating the need for alkaline batteries. It's completely self-powered by indoor lighting (both artificial & naturel light).

Lower Maintenance Costs

Each Microbust 3000 air care dispenser is self-powered and works night out of the box. The need to purchase, store, replace, and dispose of batteries -is eliminated. It's also virtually maintenance free, reducing the potential of workplace mishaps or accidents.

Low Disposal Impact

LumeCel™'s rechargeable energy cell and solar panels help to create a positive environmental impact by being recyclable, which greatly reduces landfill fees and toxic alkaline battery disposal fees.

Innovative Technology

Proactive Days-To-Refill Display, Scent Replacement indicator, and Optional Audio Tone

Easy, Flexible Programming

Maximum Cost Control, Program to Your Needs

Stop Changing Batteries

LumeCel™'s rechargeable energy cell and advanced solar panels make the Microburst® 3000 completely self powered by indoor and natural lighting.

Minimum Light Required: 300 lux

Air Care Fragrances

Innovative fragrances create an environment that reinforces the fact that the washroom is clean and safe to use.

- Long lasting fragrance intensity that washroom users notice and appreciate.
- Over 25 customer-preferred fragrances to choose from.

Citrus fragrances characterised by fresh citrus scents such as lemon, orange, lime and grapefruit.

Fruity fragrances characterised by fruity notes such as apple, pear, plum, mango and melon.

Floral fragrances characterised by floral notes such as rose, jasmine, violet and green notes.

Herbal fragrances characterised by herbal notes such as rosemary, mint, coriander, lavender and sage.

Fougere fragrances characterised by cologne-type notes such as lavender, moss and wood.

Oriental fragrances characterised by notes such as spices, sweet balsams and resins.

Gourmande fragrances characterised by notes such as vanilla.

Energising Spa. Features a bold, revitalising citrus fusion of mandarin leaf and pomelo enhanced with the fresh essential oils of bergamot, grapefruit, and lime to invigorate and recharge the spirit.

Relaxing Spa. Features calming, herbal notes of chamomile and lavender intertwined with a soothing blend of musk, amber, and orchid to soothe the senses.

Purifying Spa. Features crisp, floral notes of white lily, rose, and jasmine that harmonise with soft sandalwood, juniper berry, and lemon grass oils to promote clarity and boost concentration.

Rubbermaid®
Commercial Products

How can you make sure your washroom surfaces are clean?

We all know that visible dirt is only half the story. Dirt invisible to the naked eye is the biggest threat to health and hygiene, with dangerous microbes being spread by human contact and surviving for up to 48 hours. Keeping toilets and urinals clean and odour-free is therefore an essential part of any cleaning programme. Rubbermaid's range of surface, pipe and drain cleaning products and systems ensures that toilets and urinals are always clean, always fresh and always presentable.

FIVE GOOD REASONS TO CHOOSE OUR SYSTEMS:

1) Most effective solutions for keeping toilets and urinals clean, hygienic and presentable.

2) Touch-Free system that reduces maintenance and protects service and cleaning personnel from coming into contact with harmful bacteria.

3) Bio formulation has the highest concentration of uric scale eating bacteria-genuinely reduces uric scale build-up and eliminates bad odours at source.

4) Tried and tested system with an unbeatable 5 years guarantee.

5) Looks clean… is clean. A well cared facility will improve employee morale and increase customer, visitor and tenant satisfaction.

DID YOU KNOW?
The average toilet seat harbours 49 different types of bacteria per square inch.

Purinel Bio - Hard Surface Cleaner

- Combines biodegradeable surfactants, friendly bacteria and fresh fragrance
  - removes the Biofilm, source of organic waste build-up and odours hidden deep in floor and wall grout lines.
- Combines cleaning with odour removal and helps to control the growth of microorganisms
  - cuts down on cleaning time and material costs.
- Guaranteed high bacterial counts – 70 million CFUs per concentrated ml
  - keeps working after being applied.
  - Mop water disposed of after cleaning through the drain continues the bioactive cleaning.
- Breaks down uric salts and scale naturally
  - enzyme technology breaks down the bacteria in the accumulating uric scale, without the use of harsh or corrosive chemicals.
- Suitable for use on all walls , floors and hard surfaces in a multitude of public and commercial washroom settings:
  - Leisure & Health Clubs
  - Airports, trains & train stations
  - Locker rooms
  - Retail
  - Food Service

Use with Rubbermaid PULSE™ Microfibre Floor Cleaning System (see page 48) to maintain toilet floors in prevention of uric scale staining.

R0460026

How to use

- Dilution rate: 1 part concentrate to 10 parts water for first three days. I part concentrate to 40 parts water each subsequent application.
- Shelf life: 2 years.

Baby Changing Stations

Foldable and Compliant with all global safety standards.

- Two models: vertical or horizontal.
- Large, deep bed with adjustable safety belt.
- Foldable design provides space optimisation.
- Easy to reach aluminium hooks on both sides for easy access to diaper.
- Built-in shelf accomodates baby powder and other small items.
- Easy one-handed operation allows for safer opening and closing while leaving the other hand free.
- Antibacterial protection inhibits the growth of bacteria that causes odours and stains.
- Safe and ergonomic design that meets all applicable standards ASTM or EN 12221-1.
- Liner dispenser with moisture barrier on easy-to-service holds (up to 40 liners FG781788WHT each).
- Optional protective liners sold separately (FG781788WHT).

EASY ONE-HANDED OPERATION
Allows for safer, one-handed opening and closing while leaving the other hand free.

■ BUILT-IN SHELF
Built-in shelf accommodates baby powder, cell phone, or other small items.

■ MOISTURE BARRIER LINERS
Easy-to-service dispenser holds up to 40 liners (FG781788WHT).

■ EASY REACH HOOKS
Hooks on both sides allow user to access diaper bag while keeping child secure.

HOW TO BECOME HACCP-COMPLIANT WITH RUBBERMAID COMMERCIAL PRODUCTS?

HACCP is a Process Control system that provides guidelines to avoid food contamination during the food preparation process and prevent unsafe food to be served or delivered. Since 2006 the European Community Directive has prescribed the implementation of the HACCP process in EU countries (EC N°852/2004 and EC N°853/2004).

RECEIVING GOODS

Challenges:

- Slow handling of goods can lead to a temperature control failure and increased risk of bacteria growth.

Rubbermaid Solutions:

- **Handle goods quickly and efficiently with our easy manoeuvrable and high capacity dollies and trucks.**

STORING INGREDIENTS

Challenges:

- Unclean equipment and incorrect product storage can lead to contamination and deterioration of ingredients before use.
- Need to follow FIFO management.
- Need to quickly identify contents for inventory and freshness check.

Rubbermaid Solutions:

- **Our complete food storage system ProSave® keeps ingredients dry and safe from external contamination.**
- **Safety Storage bins have a FIFO barrier which allows for safe ingredient rotation.**
- **We also offer small and clear containers.**

PREPARING AND COOKING

Challenges:

- Need to reduce the risk of cross-contamination while handling food (e.g. avoid contact between raw meat and cooked ingredients).
- Utensils and GN pans can melt or chip and create room for bacteria build-up.

Rubbermaid Solutions:

- **Heavy Duty High heat GN pans are rated up to 190°C, reducing the risk of melting or breakage.**

Why do you need to comply with HACCP guidelines?

- You avoid costs associated with poor food hygiene.
- You protect your reputation and image.

TRANSPORTING AND SERVING

Challenges:

- Transportation: inadequate insulated containers influence the heat/cold chain.
- Dented metal food pans favour bacteria build up.
- Ice management: Ice handling illnesses are caused by contaminated hands or utensils.

Rubbermaid Solutions:

- **Our Catermax™, ProServe® and insulated carriers ensure that the temperature chain is respected.**
- **GN hard and soft lids protect contents from physical hazards.**
- **Dedicated ice handling system to reduce risk of cross-contamination and improve employee safety.**

WASTE MANAGEMENT

Challenges:

- Inappropriate waste handling can result in cross-contamination because of contact with contaminated waste.

Rubbermaid Solutions:

- **Step-on Containers: foot operation avoids contact between hand and contaminated waste.**

CLEANING

Challenges:

- Residues on hard-to-clean pans or containers: bacteria build up.
- Inappropriate equipment: inefficient cleaning.
- Area not disinfected efficiently after work.

Rubbermaid Solutions:

- **Non-stick cold or high heat GN pans, smooth surface and rounded shape containers ease cleaning process.**
- **Pulse™ will help improve cleaning tasks.**
- **Hygen™ Microfibre mops and cloths are one of the best bacteria removers on the market.**

Rubbermaid® Commercial Products

Space Saving Square Storage Containers

Stackable containers store more in less space.

- Square containers store up to 25% more on a shelf than round containers in the same space.
- Available in break-resistant clear material for visibility or durable white polyethylene; both with smooth surfaces for easy cleaning.
- Manage food inventory with easy to read measurement graduations – red for quarts and blue for litres.
- Durable handles for easy transport and drain holes for proper washing and drying.
- Temperature range for clear containers: -40°C to 100°C.
- Temperature range for white containers: -28°C to 65°C.
- Assists in complying with HACCP guidelines.
- Compliant to NSF and EU standards.
- Commercial dishwasher safe.

Square Storage Containers.

Lids

- Snap-tight fit reduces leakage, helps prevent spoilage, and limits cross-contamination.
- Corner pull tab for easy lid removal.
- Lids available in two sizes to fit all containers, eliminating the need for multiple lids.
- Compliant to NSF and EU standards.
- Commercial dishwasher safe.

* Fits space saving container

Round Storage Containers

Store food safely and efficiently.

- Round shape allows more efficient air circulation for cooling in the refrigerator or freezer.
- Stackable handled containers available in semi-clear polypropylene.

Polypropylene for better visibility

- Temperature range for semi-clear containers: -28°C to 65°C.
- Compliant to NSF and EU standards.
- Commercial dishwasher safe.
- BPA-Free.

Lids

- Positive-lock lids (double wall seal) with corner pull tabs for keeping foods fresher.
- Writing area provided for labeling and dating of contents.
- Lids available in two sizes to fit all containers, eliminating the need for multiple lids.

Colour-Coded High-Heat Spatulas

While sautéing vegetables or stirring a sauce, the high-heat colour-coded spatulas are a necessity for every kitchen.

- Silicone blade and nylon handle resist temperatures up to 260°C (500°F)
- Clean-Rest™ feature keeps the blade off of countertops
- Available in 24 cm and 34 cm lengths
- Notched, stain-resistant scraper blades cleanly scrape sides of pans without scratching them
- Meets EC Regulation 1935/2004 on materials and articles intended to come into contact with food
- NSF-certified
- Commercial dishwasher safe
- Assists in complying with HACCP guidelines

ProSave

Safety Storage Ingredient Systems

Improve safety and productivity with new Safety Storage Bins for smaller quantities of ingredients. Lid design provides access to ingredients while stacked, on a shelf or under a prep table.

- Lid design allows for one-handed access to ingredients while stacked.
- Clear windows and ingredient labels for easy identification of contents.
- Integrated 2 Cup Safety Portioning Scoop and hook provide dedicated scoop storage for safe ingredient portioning.
- Assists in complying with HACCP guidelines.
- FIFO (First In, First Out) barrier aids in proper rotation of ingredients.

- Dual opening and closing allows for one-handed access while stacked on a shelf or a table.

- Lid locks onto base to protect ingredient integrity.

- The scoop hook allows the safe storage of the scoop in the container with no contact between the handle and the food.

- FIFO Barrier supports first in, first out rotation of ingredients for improved quality and safety.

- Front and rear handles aid with safe and stable portability.

2020978

Rubbermaid® Commercial Products

COMPLIANCE CODE FACTS
Rubbermaid Commercial Products' Ingredient Bin Systems are the only containers on the market that allow scoops to be safely stored inside the bin while also completely complying with HACCP-guidelines.

PRODUCTIVITY
- Scoop Hook allows scoop to be easily accessible in every Ingredient Bin.

SAFETY
- Scoop handle is held out of Ingredient Bin, preventing cross-contamination.

SECURITY
- Snap fit secures to base to make handling easier.

ProSave™

Ingredient Bin Systems

Store, transport and measure ingredients safely.

- Scoop hook system reduces cross-contamination and provides quick access.
- Clear windows and ingredient labels for easy identification of contents.
- Clasp secures lid on base, protecting quality of ingredients.
- Durable, industrial-grade structural web plastic construction; smooth surfaces for easy cleaning.
- Casters allow bins to be easily moved between multiple prep stations.

ProSave

Food Boxes and Lids

- Clear for visibility, durability and stain-resistance.
- Tight-fitting snap-on lids.
- Freezer safe.
- Date control panels on boxes and lids for easier inventory control.
- Available in standard industry sizes to accomodate existing storage racks, counters, etc.

Dual Action Lids

- One handed access.
- Easy access to contents without removing the lid.
- Keeps food covered or uncovered when needed.

Drain Trays and Colanders

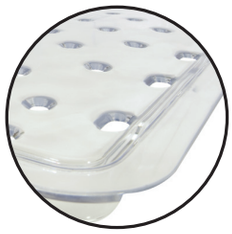

- Ideal for multiple food storage and preparation applications.
- Drains food quickly and conveniently. Ideal for marinating and thawing foods.
- Universal lid fits all major brands of clear boxes.
- Domed design promotes liquid drainage.
- Promotes airflow within food boxes and separation from moisture.
- New drain hole design with softened edges prevents food damage.

ProSave® Dual Action Food Box Lids:
One-Handed Access
For improved flexibility and efficiency.

Colanders:
Promotes liquid drainage.

Drain Trays:
Domed design allows for improved drainage to keep food longer fresh.

How can you make food preparation easier and safer?

The safe preparation of food is of vital importance.
Cross-contamination of raw meat with ready-to-eat foods is the number one cause of food poisoning.

Good food-handling practices include:

- Ensuring against cross-contamination.
- Management of unsafe food, such as raw meat.
- Regular and thorough cleaning processes, reducing the risk of bacteria growth in food storage areas.
- Utensils, such as metal pans can dent during food preparation and become ineffective.

Rubbermaid can help you avoid unsafe food handling practices by offering complete, high-quality kitchen, cleaning and food storage solutions.

- Efficient, organised food storage in transparent space-saving containers, safety storage bins, presentation dishes or carts.
- Straight from preparation to cooking, Rubbermaid's Gastronorm Pans allow easy storage, preparation, cooking and transportation of food.
- Gastronorm pans will not dent or chip, reducing the risk of bacteria build up.
- Peace of mind: Rubbermaid scrapers and spatulas will not melt or deform, even at high temperatures.

DID YOU KNOW ?

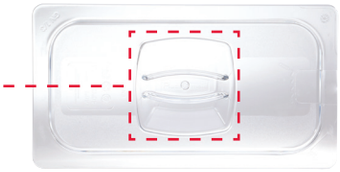

- Avoid contact between raw food and cooked.
- Safely cooked food can become contaminated through even the slightest contact with raw food. This cross-contamination can be direct, as when raw poultry meat comes into contact with cooked food.
- It can also be more subtle. For example, do not prepare a raw chicken and then use the same unwashed cutting board and knife to carve the cooked bird. Doing so can reintroduce the disease-causing organisms.

Gastronorm® Food Pans for cold preparations

- Gastronorm® Food Pans for cold preparations (resistant from -40°C to 100°C).
- Non-stick surfaces for easy food release, easy cleaning.
- Soft Sealing lids temperature range is -29°C to +65°C.
- Pans and Lids are commercial dishwasher and microwave safe.
- Not for use in steam table

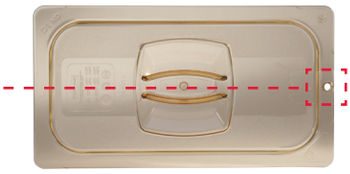

HARD COVER:
- Deep, moulded handles are designed with secure finger grips to minimise food contamination and contact with food.

WRITE-IN WINDOWS:
- to facilitate date coding for inventory control.

PEG HOLE LID:
- Peg holes are used for hang drying - lids dry faster while saving counter space.

SOFT STORAGE LID:
- Seals on insert plan help reduce air flow to food - therefore maintaining food quality. No overlap on food pans allows easy use in transport.

NOTCHED HARD COVER:
- Notch allows spoon to be easily available while food remains covered; it keeps spoon handle out of food, helping to prevent cross-contamination.

Gastronorm® Heavy Duty Food Pans for hot preparations

- Heavy duty high heat material is made of a highly resistant resin.
- Heavy duty high heat material gives an excellent product clarity.
- Rubbermaid Gastronorm® Food Pans can go directly from storage to microwave to bain-marie without switching containers.
- Rubbermaid Gastronorm® Food Pans and Hard Covers are temperature-rated from -40°C to +190°C.
- Clear lids feature moulded-in, cool-touch handles designed for safe handling and convenience.
- See-through container saves time by allowing quick, easy identification of contents, also reduces food wastage.
- Rubbermaid Gastronorm® Food Pans maintain their shape and positive appearance.
- Available in amber, white or black.
- Non-stick surfaces for easy food release, easy cleaning.
- Not for use with open flame.

Both Hot and Cold Food Pans meet CEN Gastronorm® specification 631-1 developed by the European Commitee for Standardisation. Both Hot and Cold Food Pans with Soft Sealing Lids are designed to fit Max System™ Racks and Carts and CaterMax™ and ProServe® Insulated Carriers. All Pans, Drain Trays and Lids are also NSF Std. 2 certified.

Max System™ Racks and Carts

Increase efficiency by maximizing space, transportation and storage.

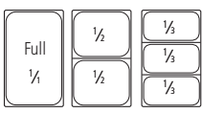

- An innovative system specially designed to work with Gastronorm®-sized food pans.
- Rubbermaid Max System™ components are made of impact-resistant structural web plastic.
- Easy-to-clean plastic construction that resists stains and corrosion.
- Designed with soft, rounded corners that are easy on walls, doors and other equipment.
- Ideal for use in cold / freezer rooms.
- Heat-resistant plastic construction allows hot baking pans (176° C max.) to be pulled directly from the oven and placed on the rack.
- Quiet handling and upscale design let workers move food directly from kitchen to dining room for fast restocking without repeated trips.
- Rubber casters available as option.
- NSF certified for cleanability.
- 12.7 cm swivel casters are non-marking: two lockable, two non-lockable.

What's the best way to stock your front-of-house furniture and equipment?

In the catering and hospitality industry, your front-of-house furniture and equipment will be in constant use and facing repeated wear. In order to provide the very best service to your customers, you need robust, presentable equipment that will help your service staff deliver the best possible service and keep your guests comfortable at all times.

Some of the most common front-of-house problems include:

- Inadequately insulated food transportation containers can negatively influence the temperature chain.
- Food preparation and delivery carts need to be clean, stylish and presentable when used in front of guests.
- Transporting heavy items can lead to injuries.
- Carts need to be easy to manoeuvre in busy front-of-house areas.
- Ice management: ice handling illnesses are caused by contaminated or unwashed hands or utensils.
- Ensure comfort and safety for your little guests with practical child seats.

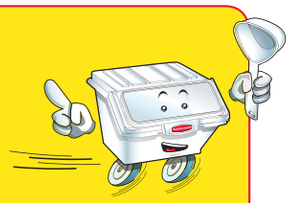

Be HACCP – Hazard•Analysis Critical•Control•Point

Rubbermaid's total front-of-house solutions provide all the answers you need for a smooth-running catering or hospitality establishment

- Food transportation: Rubbermaid's ProServe and Catermax insulated carriers ensure the temperature chain is left unbroken.
- Gastronorm Pans and soft lids protect contents from harm.
- Rubbermaid Carts now feature an upgraded design to fit all environments, with swivel casters for easy manoeuvrability and a high load capacity to reduce transportation time and physical strains of serving staff.
- A dedicated ice handling system to reduce risk of cross-contamination and improve employee safety.
- Our Sturdy Chair and Baby Changing Stations have built-in antibacterial protection to help prevent the growth of stain and odour and minimize risk of injury.

DID YOU KNOW ?

- Serving food safely for waiters.

- Use serving utensils with long handles to keep hands away from food.

Rubbermaid® Commercial Products

Safe Ice Handling System

Ice Tote with Bin Hook Adapter

- Patent-pending Bin Hook Adapter attaches to ice machines for ease of transfer and reduced back strain.
- Dedicated Ice Only Blue tint.
- Elevated base hand grip reduces cross-contamination.
- Available with or without Bin Hook Adapter.
- Non-nesting and fits in most commercial dishwashers.

20.8 L CAPACITY!

Ice Only Tote with Ice Bin Hook Adapter FG9F5400TBLUE

2 l Scoop with Hand Guard and Holder

Professional Delivery Bags

Designed especially for professional food delivery: hot and cold applications.

- Nylon construction for years of performance.
- 2 cm of polyester insulation for maximum thermal performance and no moisture or odour retention.
- Large content labeling windows.
- Nylon thread that will not deteriorate with use.
- FG9F3500 / FG9F3600 / FG9F3700 and FG9F4000 have a Velcro system closure and handles.
- FG9F3800 / FG9F3900 have commercial-grade zips, closures and handles.
- Hanging loop for drying and storage.
- Rubbermaid "Steam Release System" enhances thermal retention properties of our ProServe® Delivery Bags in case of heavy uses: steam will be released more effectively and moisture retention will be drastically reduced.

PROSERVE® Lightweight Insulated Carriers

Four layers of thermal retention provide lightweight option for safely transporting food and beverages.

- Keeps hot food hot and cold food cold safely for four hours.
- PROSERVE® carriers are between 36%–72% lighter than traditional rigid competitive products (see chart).
- Time temperature monitoring and labelling is easy with large identification window secured to each carrier.
- Range includes: 3 End Load Carriers (small, medium, large), 2 Top Load Carriers (half pan, full pan).

RIGID INTERIOR INSULATION
Expanded polypropylene (EPP) insulation is lighweight and over 300% stronger than typical Styrofoam® Insulation. EPP resists flaking, cleans easily, and provides uncompromising support.

COMMERCIAL GRADE NYLON EXTERIOR
Strong (840 denier) nylon surrounds and protects the inner layers.

NON-WOVEN POLYESTER INSULATION
Nearly an inch thick, it is the same insulation used in high-performance cold-weather gear. Will not retain moisture or odours.

REFLECTIVE VAPOUR BARRIER
Helps maintain even temperature throughout the carrier, so foods maintain their ideal temperatures.

ALUMINIUM RUNNERS
Provides pan support in End Load Carriers and are wide enough to accommodate any lid type.

	Heat loss & Cold Retention		Weight Comparison		
No.	Heat Loss in °C/Hr*	Heat Gain in °C/Hr*	PROSERVE®	Traditional Equivalent †	Difference

Sturdy Chair™ Baby Seats with Microban® Antimicrobial Protection

Sturdy Chair™ Baby Seats make safety and cleanliness a priority for your youngest guests.

- Contemporary design with Microban® technology makes it easier to clean than wood.
- Microban® provides all-over protection from bacteria growth that can cause odours and staining.
- Meets TUV and European safety standards.
- Stackable design makes for easy storage.
- Fits under standard table without tray.
- 3 point harness with one handed release.

*R050836 *R050835 *R050837 *1865517

"Structural Web" leg bracing bar for added strength.
Chairs and Trays available in platinum, dark green, red and black.

*R050836

- Convenient handle for safe, one-handed manoeuvring throughout the dining room.
- One-piece T-bar and safety harness safely helps to secure child.
- Durable moulded parts are easy to clean.

Including sticker for certified safety: placed at the entrance of a restaurant shows that the safety for little guests is a major concern.

ASTM F404-04 and TUV Certification
Standard Consumer Safety Specifications for high chairs that ensures the design and function of the Sturdy Chair™ Baby Seat meets safety specifications intended to minimize injuries to children under normal use.

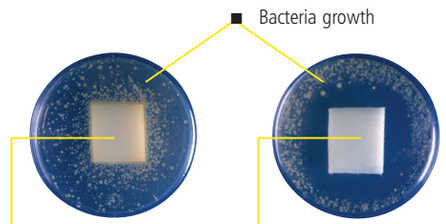

Microban® antimicrobial product protection

- Microban® antimicrobial protection helps prevent the growth of stain and odour causing bacteria.
- Microban® protection is built into the chair during the manufacturing process and will not wash or wear off during the life of the chair.
- Sturdy Chair™ looks newer longer with built-in Microban® antimicrobial protection.

FG781588 Sturdy Chair™ Tray available in platinum, dark green, red and black.

Sample antimicrobial effect

This information is based upon standard laboratory tests and is provided for comparative purposes to substantiate antimicrobial activity for non-public health applications. Microban technology is not designed to protect users from disease-causing microorganisms. Microban protection inhibits the growth of microorganisms that cause stains, odours and product degradation. Antimicrobial action limited to product surface.

Why is plastic the best option for material handling efficiency?

Fed up with your metal tools rusting and wooden products rotting? Plastic is the best option for providing reliable, long-lasting material handling equipment that will not let you down.

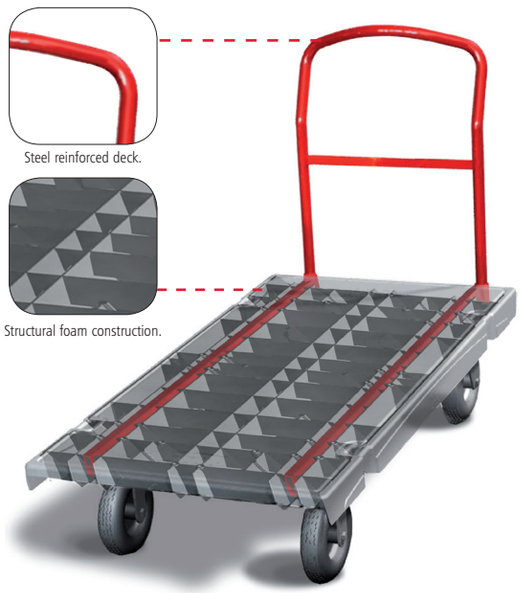

Rubbermaid's material handling products are super-strong tools that perform in even the toughest environments. Built from durable plastics such as HDPE, structural foam or structural web, Rubbermaid provides lightweight and easy-to-use products that make material handling simpler, more comfortable and more cost-effective.

- Lightweight and easy-to-clean construction.
- Quick and easy assembly using commonly available tools.
- Optimum service life: structural foam deck construction will not rust, dent, chip or splinter.
- Virtually maintenance-free.

Built to last

Many of Rubbermaid's material handling products are manufactured from durable structural foam – providing a lightweight, easy-to-clean and strong product that performs in even the toughest environments.

Duramold™ decks are formed from a precision-engineered resin and metal composite that is lighter than typical steel or wood products without sacrificing strength. This allows Rubbermaid to reduce the overall weight and improve ergonomics.
Duramold has the highest strength-to-weight ratio compared to metal, wood and solid plastic decks. This makes Duramold-based products 35% lighter but still able to carry the same payload weight.

Strength and durability

Structural foam moulding eliminates the need for a metal frame and provides a seamless, leak-proof body that won't rust, chip, dent or peel.

Why choose plastic over metal or wood?

There are three main reasons why plastic is a better choice for materials handling than metal or wood:

Versatility

- Delivers high strength design possibilities.
- More impact absorbent.
- Reduces passing damage to walls, doorways and fixtures.

Low maintenance and long product life

- Will not rust, dent, chip, peel or splinter.
- No re-painting required.
- Easily cleaned.

Safety

- Non-conductive of electrical currents.
- Waterproof and will not rot.
- Resistant to most chemicals.
- Quiet operation.

Plastic will not:

Rust

Chip

Dent

Peel

How can you avoid the pain and costs associated with repetitive strain injury and MSDs?

Rubbermaid's material handling products are designed to meet the demands of any workplace – from versatile and attractive
front-of-house solutions to the rugged and durable workhorses required in manufacturing environments.

Innovative solutions

Products like Rubbermaid's Convertible Cart are designed for applications where saving time and money are a priority, while still remaining safe and simple to operate.

Committed to safety

We are committed to designing products that help promote safe work practices, including load security points, ergonomically-designed handles and lightweight construction for ease of manoeuvrability.

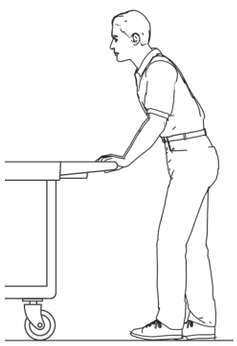

Ergonomics

Many types of work activities can cause musculoskeletal disorders (MSD). As well as the physical pain experienced by the sufferer, MSD are also costly for employers:

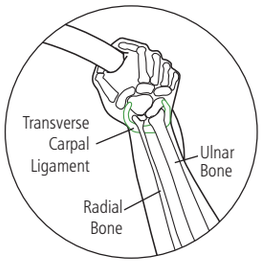

- Medical and administrative costs.
- Lost productivity.
- Abstenteeism.

Move loads safely and efficiently

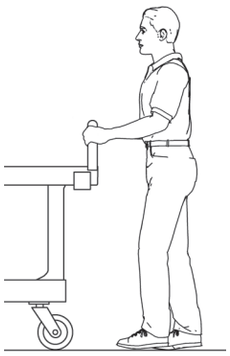

The variable grip-height handle on Rubbermaid carts and trucks improves manoeuvrability and reduces muscle strain for almost every user, regardless of their height.

TRADITIONAL CART HANDLE DESIGN

Angled handle helps keep wrist and bones in forearm aligned for optimum leverage while turning.

IMPROVED VARIABLE GRIP-HEIGHT HANDLE

The EU has passed several directives relating directly or indirectly to MSD:

EU directives 90/269/EEC, 89/391/EEC and 89/654/EEC legally oblige the employer to provide staff with safe working environments and appropriate ergonomic equipment.

Metal - dents and rusts

Wood - Splinters and rots

Convertible Utility Cart

Converts from a utility cart to a platform truck in just seconds.

- Innovative, patent-pending design.
- Multi-functional productivity with improved worker well-being - saving you time and money.
- Rear wheel locks keep cart safely in place while loading and unloading.
- Total 182 kg load capacity (68 kg on top shelf and 114 kg on lower shelf)

RECESSED TOP
Helps retain items on shelf during transport.

NARROW PROFILE
Easily navigate through doorways and hallways.

ERGONOMIC HANDLE
Designed for comfort.

EXTENDED DECK
Makes loading the lower shelf easier.

CASTERS (2 FIXED, 2 SWIVEL)
Four 12.7 cm non-marking (two rear locking) casters help cart move easily, even through tight spaces.

X-tra™ Utility Carts

A range of high-quality carts, sized to carry the load and reduce return trips.

MADE OF RECYCLED MATERIAL

1814568 / FG409300 carts attractive styling, ideal for "front-of-house" use.

- Ergonomic, handy grips.
- Textured surface on all shelves resists scratches.
- Smooth surfaces and rounded internal corners are stylish and easy to clean.
- 135 kg total load capacity (maximum 45 kg per shelf).
- Large shelves, designed to hold 2 full-sized Gastronorm® Pans or Bus/Utility Boxes per shelf.
- Made of structural web construction for durability; resists chips, dents and rust.
- Quiet, mark-resistant swivel casters and plastic construction help eliminate added noise.
- Compatible with FG335388BLA Refuse Bin and FG335488BLA Utility Bin (page 174).
- 4 swivel casters. Also available with 4 shelves.
- Also available enclosed on three sides (FG409300).

FG409400GRAY: X-tra™ Carts with drawer and cabinet.

- Lockable doors secure contents.
- Slidable top drawer.
- Compatible with FG335388BLA Refuse Bin and FG335488BLA Utility Bin.
